LEA BABI

R&B for the hours after midnight. Silky, warm vocals, slow-burning grooves and stories of modern romance, from midnight messages to the quiet chemistry of everyday moments.

ABOUT LEA

Lea Babi inhabits the intimate side of modern R&B: the conversations that last past midnight, the attraction that changes an ordinary afternoon, and the complicated emotions behind romantic confidence. Her songs blend contemporary R&B textures, soulful warmth, and understated Afro-influenced rhythms with direct, evocative storytelling.

Her creative world is unmistakably polished but never distant. Burgundy noir imagery, luxurious editorial styling, and an assured feminine presence complement songs that move between playful flirtation, emotional openness, and self-awareness. Whether the setting is a late-night phone call or a familiar apartment, Lea turns small moments into memorable musical scenes.

Lea Babi is an AI-powered virtual artist developed by SQUAREDUM LLC under human creative direction, with original AI-assisted music. As part of the Velvet Noir Records R&B universe, she represents a producer-led approach to artist storytelling that connects music, visual identity, and fan discovery.

SHORT BIO (STREAMING)

Lea Babi is a contemporary R&B virtual artist bringing intimacy, confidence, and emotional honesty into focus. Songs such as “Midnight Texts” and “Borrowed Hoodies” capture the tension between desire and vulnerability. With an editorial world of burgundy, cream, and black, Lea balances sensuality with self-possession.
